

VICINITY MAP

NOTE TO MAP USERS

It is recognized that the management priority areas (MPA's) depicted on this map may include areas of private surface estate over federal mineral estate, private, state of Colorado or other non-federal lands. The MPA designations apply only to BLM managed surface estate or federal mineral estate. On private surface estate over federal mineral estate lands, MPA designations indicate how BLM would manage the federal mineral estate; MPA's would not dictate any surface uses unrelated to federal mineral development. None of the MPA's apply to private, state of Colorado or other lands not managed by BLM.

This map does not meet National Map Accuracy Standards.
